
Drupal Gutenberg

More tightly integrated with Drupal

frontkom

Who are we?

Innovative digital consultancy working with strategy, design, technology and communication.

- 120+ people in 3 countries

Selling points

Pains to solve

- Building a landing page often takes a full day of work
- Page editors/ page builders are hard to use
- Non-trained editors find it too hard to add content
- Copywrite in Word or G.docs then paste from that
- Creators don't follow branding guidelines
- Content marketing underperform
- Visual difference between frontend and backend

Gains from Gutenberg

- Very compliant with other modules
- Simpler and faster content creation
- I can spend most of my time doing what I'm good at
- Enable non-writers to also publish their content (e.g. C-level)
- More content editors active
- Editors will be happy doing their work
- Content creators say they love to use CMS

Unbeatable user experience
Our vision is to make Drupal the most user friendly and useful tool for content creators.
Content creators
Gutenberg is fast as a sketching tool. Yet it is solid enough to build out, finalize, polish and publish.
Marketing
Gutenberg lets you build out landing pages and articles fast - and improve according to needs.
Developers
High performance, easily cacheable and translatable. Use Gutenberg into with React.
When you want to give an experience
Using video with call to action.
Here's some more text for you
Enjoy Gutenberg
